## **Interest Form for Opening a Fun Company at Eagle View Elementary**

The purpose of this form is to survey parents' interest in opening a YMCA Fun Company program at a new school: Eagle View Elementary. We will only open a new program if we have 40 committed students that will register for the program. Once we have received enough parent interest, we will take the next steps to contact DHS and begin registration for a new program. Because of the length of time it takes to receive a new license, we will need to make a decision by early June. As a result, we would appreciate receiving your interest form no later than **March 30<sup>th</sup>**.

**I understand that this is not a registration form, but by filling this out I am simply expressing my interest in having the Fun Company program at Eagle View.**
